

Email to Club Directors – 12-15-09

This message is being sent to everyone who is a current member and designated as a Club Director in the Great Plains Region. If you receive this in error please contact the Great Plains Region to be removed from this list if you like.

Thanks for everyone's patience as we work on getting the tournament system up and running this season.

Online Tournament Entry System (OTES) is now available for tournament entries. If you have not built your club and/or teams in OTES, you can find instructions on the Tournament Schedule page of the region website. If you have questions regarding the system, contact the Great Plains Region office.

Team approval in OTES. You MUST contact the Great Plains Region office to have your teams approved AFTER you have built your rosters in the Webpoint (registration) system. All club directors who have turned in their club profile for the 2010 season and have a current membership should have their club admin access available to build rosters. If you do not, contact the Great Plains Region office.

You can NOT add a coach to a roster until they have completed all coaching requirements. This includes passing a background screening, being IMPACT certified and having their coaching eligibility status updated in the Webpoint system.

Any club who is or will be sending an Age Waiver request MUST contact the office AFTER you have built your rosters in the Webpoint system. The region office will then add the waived player(s) to the respective roster(s). Then we can approve these teams in the OTES.

Reminder: ALL COACHES MUST ATTEND A RULES MEETING. This season, we have MANY new rule changes. Some of the rule changes include what is a net violation and a new centerline rule. Make sure all coaches are attending a clinic before they attend their first tournament.

If your club plans to have a private referee and scorekeeping clinic, please contact the Great Plains Region office and let us know who did your clinic, where and when the clinic was and a list of coaches who attended the clinic. You would be responsible to pay the clinician.

Thank you,

Bill Stanley  
Great Plains Registrar
