

Modifications to FIVB/USA Rules for Great Plains Region Junior Tournaments Only

Shorter service line for 12 & Under

Tournament directors may allow players in 12 & Under and younger Silver/Bronze divisions to use a shorter service line. The shorter, secondary service line should be clearly marked with the back edge of the line 2m (6'6") from the outside of the end line. After the serve, this line is ignored. It is not acceptable for a tournament director to allow a player an arbitrary distance. The service line must be clearly marked.

One or Two Liberos

New for 2011-2013: Per USAV rules, each team may designate two Liberos for the match (before it starts).

For the 2012 season (and for use in the Region ONLY), the Great Plains Region will allow a team to use one Libero and switch them each set. If a team does not choose two Liberos in the first set, they may only play with one Libero for subsequent sets.

Libero Serve

For the 2012 season, in all Region tournaments ONLY (except Bid), the Libero(s) will be permitted to serve in one rotation.

If one Libero per set is used: the Libero already on the court (rotating to the front row) may move to position 1 (right back) to serve without being required to leave the court for one completed rally. In this case, the player that the Libero had previously replaced must replace her on the court. A Libero who has served in one rotation may not serve in another.

If two Liberos per match is being used: the acting Libero rotating to the front row may move to position 1 and serve without being required to leave the court. In addition, the acting Libero may come off the court at the same time that the second Libero moves into position 1 to serve. This double Libero replacement is only allowed for serving purposes. This will require the assistant scorer to pay more attention to Libero replacements. All other Libero situations are governed by Rule 19.3.

The referees and scorers will not intervene to correct an illegal replacement or potential wrong server prior to the service. If either of these occurs, a fault will be called at the time of service. Coaches may request a line-up check prior to the authorization of service if there is a question about the team's line-up or server.

The first time a team's Libero serves in each set, the scorer and assistant scorer will draw a triangle around the position number (the Roman numeral) in the line-up area of the scoresheet (see A below) and Libero control sheet (see C below). The Libero(s) may not serve in any other position for the rest of the set although either Libero may serve in that position. In addition, the scorer will indicate a point scored by the Libero by drawing a triangle around the point number in the running score columns (see B below).

(A) Scoresheet
